HAWK HEADLINER

Volume 4, Issue 9

May/June, 2002

Principal's Page:

HIGHLIGHTING THE HIGHLIGHTS!

Each year, as principals, we are asked to highlight our schools accomplishments for the year for the board of education. This information is shared at a celebration of successes for our school district.

For us this year, there have been many successes. I would like to take this opportunity to share some of those with you at this time.

- Our first year of seventh grade was completed with outstanding success.
- In addition, our seventh graders have provided an amazing 5760 hours of service to Friendly Hills.
- Once again this year we met our growth target from the state for our test scores. In two years we have gained more than 100 points.

- We added family reading night, family math night and continued with science fair and the writing celebration.

- We initiated a new writing program called "6 + 1 Traits" that develops skills in

voice, word choice, ideas, organization, sentence fluency and conventions.

- We will soon add new playground equipment to the kindergarten area.
- We now have 5 computers in each 4th, 5th, and 6th grade class as well as a new computer lab.

I could go on, but as you can see it has been a very successful year. Thank you for all the support you give that has led to these accomplishments.

ARE YOU RETURNING?

As you are aware, the last day of school is June 14th. For some of you this may be your last day with us, as you are moving. We want to say goodbye to each of our students, so please let us know by returning the form that was sent home to you regarding this. While some of you may be anxious for this move or a summer vacation, the last days of school are as important as the first to your child's education. So just as our teachers are working hard, kudos to you and your child for staying and working until the last day of school.

The End of the Year is Drawing Near...

DARE Promotion - Tuesday, June 11 @ 2:00

Kindergarten Promotion - Friday, June 14 @ 11:45

Sixth Grade Promotion - Friday, June 14 @ 1:30

Last Day of School - Friday, June 14, 2002

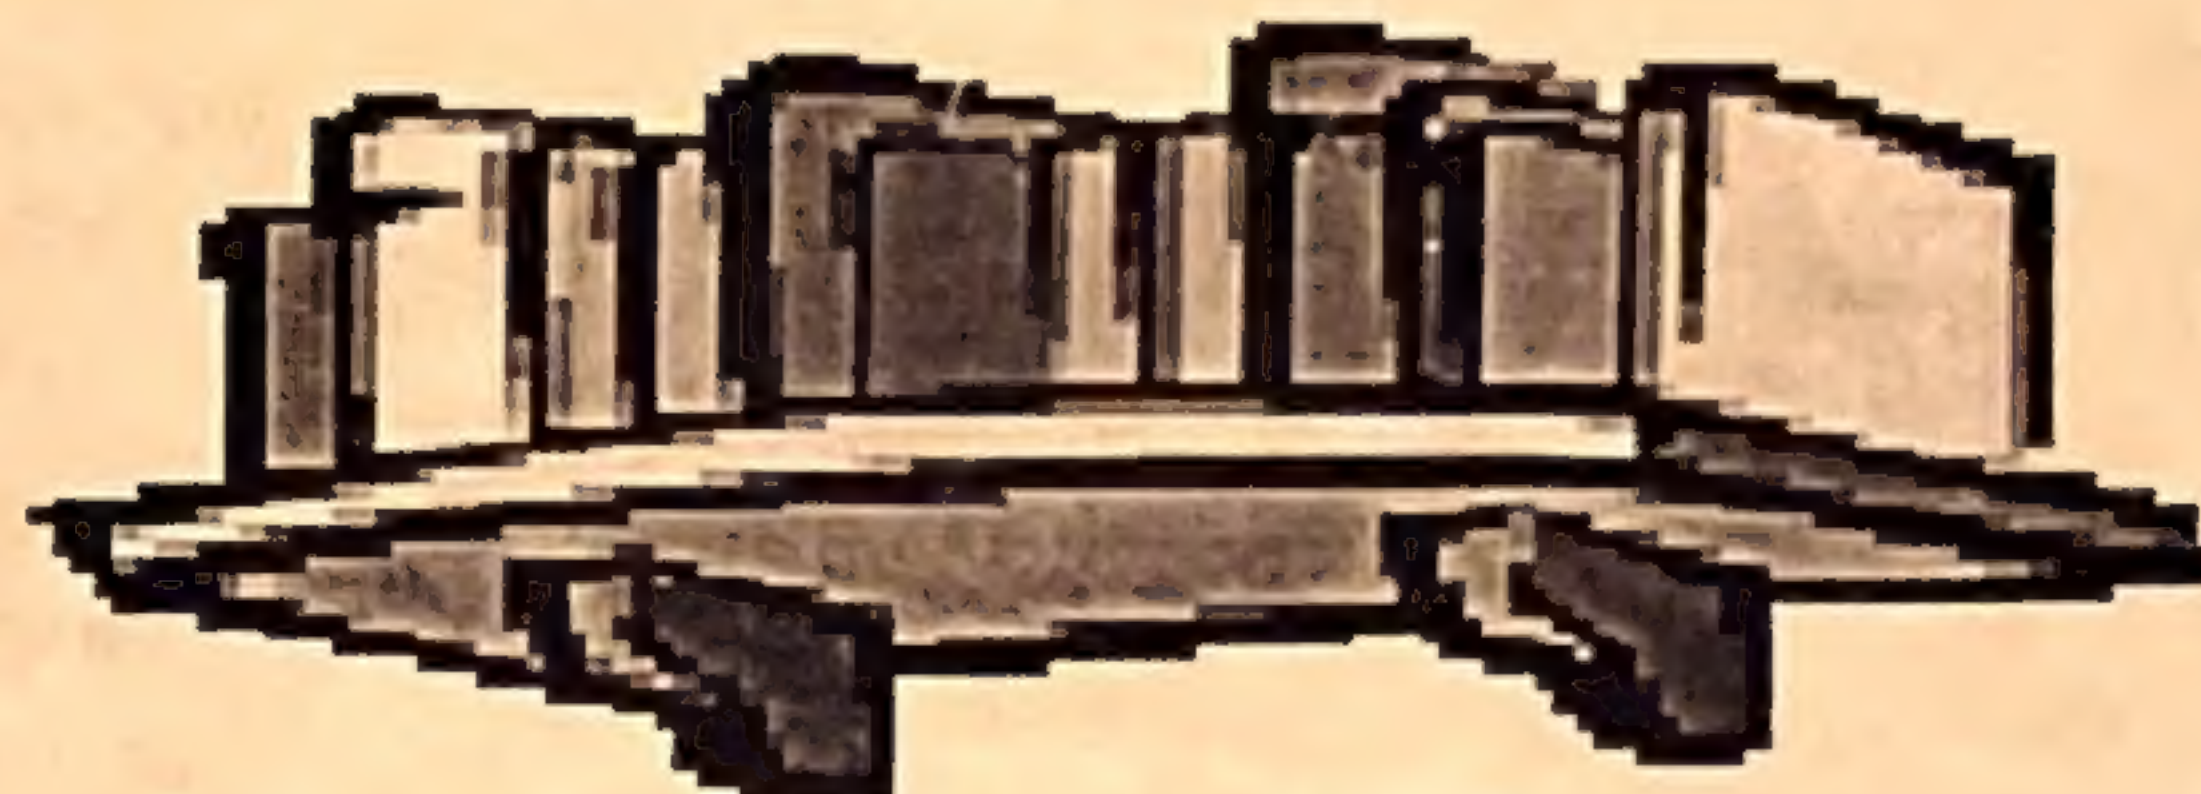

Check the May and June calendars in this newsletter for other important dates and activities.

April Library News...

We've been reading some outstanding, award-winning books recently. Ask your son or daughter about "Whoway for Wadney Wat" (our school's #1 vote), "Cook-a-Doodle Doo", "Horace and Boris but Mostly Delores", Mr. Tannen's Ties" and "Wolf". We'll soon be hearing which book won first place in the state of California.

Our fourth grade classes have been studying about California missions and have constructed some beautiful models which are on display in the library. Take a minute to drop by and peruse the wonderful work from Mrs. Dempsey's and Mrs. Friedman's classes.

Please take care of all cafeteria debts before the end of the school year. Reminder - there are no "borrows" the last three weeks of school. Be sure that your child either brings a lunch or lunch money to school everyday. Also, any unpaid balances will be held over for the following year, so please end this year on a zero balance. It will be appreciated.

Paddington's Pals for the month of March:

Kaelen Dull (Mr./Mrs. Hesse's 1st grade)
Tiffani Cotney (Ms. Subriar's 2nd grade)
Lexie McNamee (Mrs. Mann's 3rd grade)
Jesse Suddreth (Mrs. Dempsey's 4th gr.)
Laura Flippen (Mrs. Reed's 5th grade)
Allen Flug (Mrs. William's class)

Keep on reading! Paddington is so proud!
Mrs. K.

...ary. F.H.E.A. would welcome...
...are interested...

FRIENDLY HILLS ELEMENTARY ASSOCIATION

Friendly Hills Elementary Association each elects new members to serve as officers of this important organization. Officers include President, Vice President, Treasurer, and Secretary. F.H.E.A. would welcome individuals who are interested in serving in one of the above positions or would just like to be a willing "worker bee". We have a new and energetic group of parents this year who have worked diligently to develop new programs for our children. They really need your help to keep all of these exciting ideas growing. Our next meeting is Tuesday, May 14 at 7:00 p.m.

As a sign of how dedicated and hard working this group is, they are working right up to the end of the year. An ice cream float social will be held on May 16 in conjunction with our

Writing Celebration. On Saturday, May 11, a swap meet and children's carnival will be held on the school grounds. The Book Fair will be open, also, with many choice reading materials for all age levels. Please plan on joining us with your children for these fun events. Hopefully, by the time you read this newsletter, we will know the results of the Common Threads T-shirt fundraiser as well.

While this year's programs may be coming to an end, we are just gearing up for next year. Now is a great time to plan to get involved in supporting your child's education program by becoming an active member in FHEA.

KINDERGARTEN REGISTRATION....

Hear
Ye!
Hear
Ye!

Kindergarten registration is upon us. If you have a child attending kindergarten next year, stop by the office anytime during regular hours to pick up an enrollment packet. At that time, an appointment will be scheduled for you to return and complete the enrollment process. Appointments will be made for the following days: May 14, 17 and 23. To be eligible to attend kindergarten for the 2002-2003 school year, your child must turn 5 years old on or before December 2, 1997.

SUMMER SCHOOL

Summer is fast approaching and with it an opportunity for some students. Summer school will be held at Friendly Hills Elementary School this year. Buses will be available at selected bus stops to transport students here. Your child's teacher may soon be sending home a form if he/she is recommending summer

school for your child. Summer school will be held for 16 days beginning Monday, June 24. Confirmation information will be sent to you as we get a little closer to summer school opening day. If you have concerns regarding summer school for your child, please contact his/her teacher.

Creative Writing from Mr. and Mrs. Reed's Classes (Grades 5 and 6)

From Treasure Island by Michelle Mummey

I, Michelle Hawkins, am writing this passage to relieve you of the myths and stories about Treasure Island, and also to leave you the truth about what really happened on that horrible journey. I am including the map, but not to worry, we have taken all the treasure off that disease ridden island, so don't try anything funny!

I remember it like it was yesterday. A filthy man, Billy Bones was, came to our inn. I knew he was a man of the sea since his hair was tarry, he had cuts all over him and his skin probably wasn't as dark when he was clean. He was dragging a chest of some sort. I could tell it was heavy because every stride he took he slid back on the wooden floor an inch or so because of it's weight. As soon as he had walked in he started demanding rum. He had a stroke the next day, but just before he died he told me to look through the chest, and there it was. The map that led the way step by step to the largest amount of treasure charted. Now it sounds nice, but this is also the map that all the pirates in the world would kill for.

About two weeks after I had acquired the map, Squire Trelawny got a ship, The Hispanola. He also put together a crew. If you had seen this crew you would have thought the same thing as I, you would have thought that these men looked like jail breaks. They were dirty, they were scummy and they're clothes probably hadn't been washed in a decade. I didn't want them to be on the same ship as my map, but since I was only 12, it didn't matter what I thought. The crew ended up being all right on the ship, that is until I overheard them in the apple barrel. "It will go out perfectly, we take young Hawkins to the island with us, recover the map, and take all the good lads hostage." I now knew exactly what Billy Bones' plan was, he was gonna take over the ship and not

let us have any of the treasure. His plan worked, except for the part where he wanted to get to the treasure first and keep it all to himself. Dr. Livesy and I ended up defeating the crew, nobody got the treasure though, it went down with the passenger boat. Well now you know that if Billy Bones was still alive he would be in jail.

Fik by Devin Coburn

It was so old and dusty. It was made out of wood and plastic. When the new kid came to school he invited me over to his house. When I got over there we ate dinner and played video games. The usual. So I went with him.

Once we got in the basement he started to feel the walls. At first I thought he was weird. Then a door opened! There was a machine. He told me to hop in, so I did. Then he did. He started to turn knobs, hit levers, push buttons. Then he asked me where I wanted to go. I said, "I don't care." He took me to this planet with trees and moss. There was lots of water too, but the water was red, blue and orange. The water was in the sky just floating there. There were two moons and four suns.

He took me to an alien reservation. He gave me some S.G.P. (alien money.)

I started walking in the alien town. I saw a funny animal. The shopkeeper said his name was Fik, so I bought him. He had four arms, he was

green, and had antennas. They also gave me some food for Fik. Then Sean gave me a suit case that was really small. I stuffed everything in there.

When we got back in the house it was morning. We built a fort where we could keep Fik warm. It was under ground. Two months later when I came back Fik was out of food. Fik could talk now. It was amazing. He was really happy to see me. Sean took me back to the alien planet. We bought more food and this gold collar for Fik. They said gold was almost worthless on this planet. So it was really cheap.

Then Sean called me one morning and said Fik was changing. When I got over there Fik wasn't any bigger, but he was blue. And had only two arms. Sean came over to my house and we built another fort. This time Fik stayed at my house. We were trading Fik every month. That is until Sean came over with another animal from that planet. He told me its name is Fix. Every time I went over there or he came over he we would bring our pets. They would play and play and play. One morning we went back to that planet and Fik and Fix wanted to stay. They wanted to be on their home planets so we let them stay. They started to wave good-bye when we took off. We visited them every week.

Travel Adventure by Hannah Pattillo

like something my mom had thrown into the dumpster last week. It had wires of the sides of whatever it was. It had a passenger seat and a driver seat but it had a steering wheel. There were buttons all over. Who knows what they were some were, red, green, blue, orange, and yellow. I was lucky there weren't any pink ones else I would have been tempted to push it.

I've known Sarah a long time in fact ever since first grade but I still can't figure her out. She always making these weird inventions. The one that made me really weirded out was her space ship. Right after she told me about it, I left her. Hey, I wasn't going to be the first one to try it out she might kill me.

The next day she begged me to try it out with her. So, the nice person I am, went and sat down on one of the seats that didn't really look like a seat. She sat down next to me and started pressing buttons. When she wasn't looking I couldn't help but press the blue button. Kaboosh! we were off. She looked at me with a scornful look then looked away.

I couldn't believe we were actually moving. Don't tell her this but this is really the first thing she invented that was actually successful. We passed through all the stars like there was no tomorrow. Then with a sudden thump we landed. I don't think she intentionally meant to. I looked out of the window and saw a purple, pink, and blue ground and a planet to our right.

I was astonished by its beauty. I looked at her and she looked away embarrassed about her landing. I suggested we put on our space suits. She looked at me with a puzzled look. "Come on don't be such a baby," I said. So we put our space suits on and were off. It was awesome. It felt like I only weighed one pound. We jumped across each other and over each other. It was so hilarious when Sarah tripped over her shoelace landed face first. Then, when I was laughing at her, I did the same thing. Then we both got pink space sand in our mouth and it actually tasted good! It tasted like bubble gum.

Then, I looked at my watch and it was time for dinner. So we both picked up a handful of sand and were on our way. I will never forget that place. "Me neither" she said. When we got home I had to show my sister proof that I actually went to space so I showed her my sand that I had picked up. I also showed her it was edible mmmmmmmmmmm.

Great Writing from Our Younger Ones in Mr. and Mrs. Hesse's 1st Grade Class

Globes by Sarah Fleischman

A globe has every country on it. We have a globe in our class. It has California on it. We look at the globe to locate places. The globe is shaped like a sphere. The globe has oceans on it. All of the countries are different colors. I like globes. A globe makes us

By Gage Brenneman

Hurricane by Allie Cressy

My family sailed to an island near wavy water. We built a house there. We had to have people come do the tile. It took a lot of work.

One day in the middle of nowhere clouds starting bursting around the house we had built. Rain flooded it and hit the roof hard. Then I knew what was happening. A hurricane was coming!

I told everyone what was going on. We put safe stuff on and went out of the house. We moved back to our old house on the mainland. We were saved from the hurricane.

Thank goodness! After all that work! Sheesh!

Some Soaring FHES Hawks

Science Fair Extraordinaire!

Mat Patten, a 6th grade student in Mr. Reed's class, competed the recent Inland Science and Engineering Fair held April 23-24 in San Bernardino. Mat competed amongst 800 entries from Riverside, Inyo, Mono and San Bernardino counties with his outstanding project titled "From Landfills to Life". His demonstration addressed environmental concerns and demonstrated the capabilities of plant life thriving in various landfill environments. Mat garnered a coveted second place for his efforts and the honor of competing at the state level on May 20-21 at USC. Not only do we congratulate Mathew on making FHES proud but we wish him the very best in this next competition and beyond. Mat's discoveries and plan may be implemented in landfills in our future.

Let's Hear It For The BAND!!!

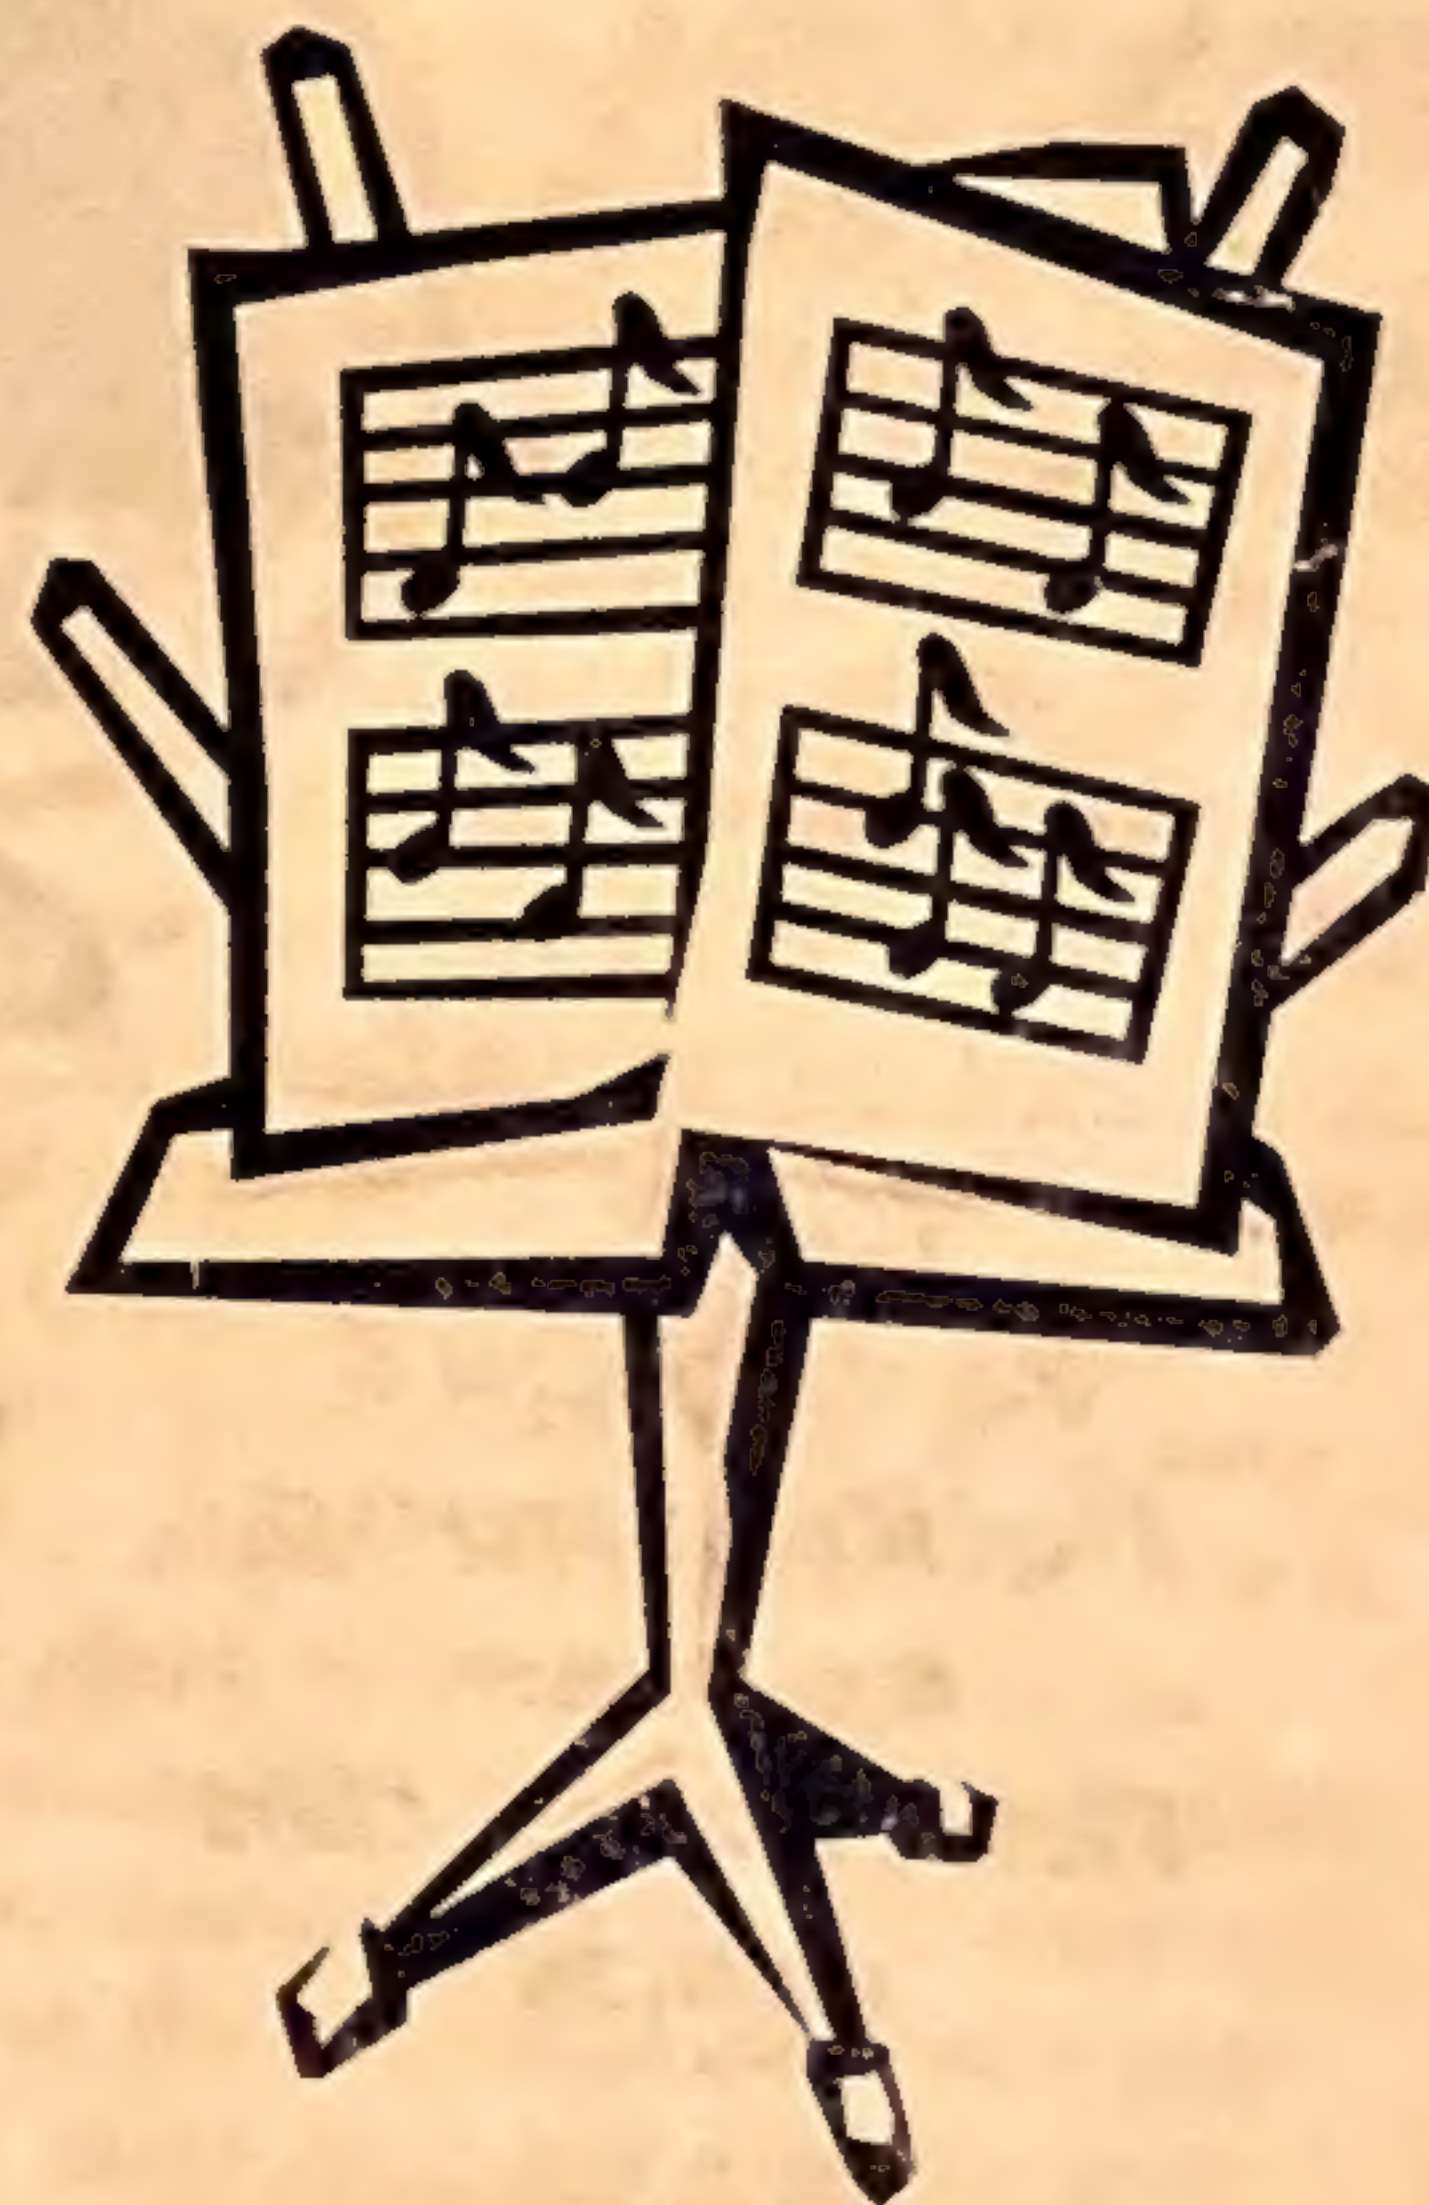

Some of Friendly Hills finest musicians have been selected to participate in the Morongo Unified Elementary/Middle School Honor Band.

Breeann Hall, flute, Hannah Pattillo, flute, Rachel Pattillo, clarinet, Dakota Westlake, alto sax, Ian Blanding, trumpet and Sarah Henry, percussion will be representing their school next month.

This wonderfully talented and energetic group of young musicians will be performing with other talented students from throughout Morongo Unified on Thursday, May 9, 2002, at Oasis Elementary School, 29 Palms, at 7:00 p.m.

Congratulations to each of these fantastic Friendly Hills students and their director, Mr. Neil Overbay, who teaches and inspires them.

If you can walk you can dance. If you can talk you can sing.

Our Story

Friendly Hills Elementary was founded in 1988 as part of the Morongo Unified School District. Since its inception, the school has been instrumental in the education of more than 2500 students. Our first kindergarten class graduated in the year 2000. We are confident that that class, and all who have followed, leave this school with a strong well rounded education. Our tradition has been one of academic excellence, high student expectations and an education rich in the arts. As we move into the future, Friendly Hills continues to lead in these areas as well as emerging as an innovator in the area of technology. We attribute our success to a talented, dedicated staff, caring parents and wonderful students.

decision making body within the school. This committee puts together a Site Based Plan each year that outlines how money for special programs will be spent. It is made up of an equal number of parents and staff.

During this past month's meeting, the committee accomplished the following important tasks:

The team reviewed needed information in regards to the new school plan. The committee gave input on several important areas. These included input on:

- ♦ Progress on Standards Instruction
- ♦ Work with underperforming students
- ♦ Resources available
- ♦ Barriers to improvement
- ♦ Limitations and improvements for our current programs.
